These examples show that there are lessons here for all of us to learn from other countries in terms of key actions. This week you will have the opportunity to look around, to exchange experiences and to learn from your fellow Africans. All these successes - and there are many more, but I had to make a selection - were achieved by Africans, for Africans. I know you are all set to continue with African pride. Show the world what you can do, show the world you take your own development and well-being seriously. The world will gladly help you achieve it!

Prince Willem Alexander of the Netherlands

Chair, UN Secretary-General Advisory Board on Water & Sanitation
